SUMMARY

Experienced Mobile Developer specializing in cross-platform development with Flutter. Published 10 applications on App Store and Google Play across diverse domains. Proven ability to lead teams, mentor developers, and deliver high-quality projects on schedule. Practicing AI-Driven Development (AIDD) with Claude Code and Google Antigravity to accelerate development workflows and ship faster.

TECHNICAL SKILLS

Core

Flutter

Dart

Cross-Platform Development

State Management (Bloc)

Clean Architecture

Dependency Injection (get_it)

auto_route

easy_localization

Responsive UI

RESTful API

Firebase

SQL / SQLite

Git

Android

Kotlin

Java

Tools

Claude Code (Skills, Rules, Commands)

Google Antigravity

Figma

Jira

GitHub

GitLab

Postman

Android Studio

VS Code

Soft Skills

Team Leadership

Code Review & Mentoring

Sprint Planning

Cross-team Collaboration

Problem Solving

PROFESSIONAL EXPERIENCE

Senior Software Developer (Mobile)

Masterise Group > One Mount

Nov 2024 - Present

Developing Masterise Homes, a cross-platform mobile application built with Flutter, serving residents and supporting sales and marketing activities. Transitioned from Masterise Group to One Mount (Aug 2025) as part of the Techcombank - Masterise - One Mount ecosystem consolidation. Also built a check-in app for corporate events.

- Architected scalable codebase using Clean Architecture with Bloc state management, auto_route, and get_it dependency injection.
- Delivered resident-facing features including facility booking, community announcements, and service requests with responsive UI.
- Built event check-in app enabling fast attendee registration and real-time tracking for corporate events.

Flutter Developer

FPT Software

Nov 2022 - Nov 2024

Developed a cross-platform web application for the insurance industry using Flutter Web in a team of 6. Features included contract modification, fund withdrawal, and flexible product management.

- Collaborated closely with the design team to deliver optimal solutions balancing technical feasibility and user experience.
- Implemented complex business logic for insurance contract workflows and fund management with responsive, adaptive design.

Flutter Developer / Mobile Leader

ICC VN (Saaspiens)

Jul 2019 - Nov 2022

Spearheaded development of a suite of mobile applications for various industries using Flutter. Led mobile development with responsibilities including code review, sprint planning, task assignment, and mentoring a junior developer.

- Sales management app: Location tracking, route planning, and sales materials for field teams.
- Customer ordering app: Streamlined order placement and promotion management.
- Delivery driver app: Real-time route tracking, verification, and timesheet management.
- An Sinh HCMC app: Delivered under tight deadlines during Covid-19 lockdown, providing relief supply management, donation tracking, and community assistance for HCMC residents.

Android Developer

Defide

Nov 2018 - Jun 2019

Developed native Android applications for a Japanese client with a focus on UI/UX using Kotlin.

- Movie Ticketing App: Booking, payment integration, and viewing history.
- Smart Home App: IoT device management via intuitive interface.

Android Developer

DMSpro

Jun 2017 - Oct 2018

Developed a Distributed Order Management (DMS) solution as an Android application using Java. Created a delivery management application using Xamarin.

- Architected offline-first data layer using SQLite with complex queries to ensure full functionality without network connectivity.
- Authored Stored Procedures as the primary business logic layer, bridging database and mobile client.

Android Developer

DigiOn24

Oct 2016 - Mar 2017

Designed and developed Android and Windows applications for storing information and passwords in NFC cards with high-security levels. Implemented data compression and encryption solutions for NFC card storage.

EDUCATION

Bachelor of Software Engineering · Nguyen Tat Thanh University · Dec 2015 - Jun 2017 · GPA: 7.8/10

Associate of Software Engineering · Nguyen Tat Thanh University · Sep 2012 - Sep 2015 · GPA: 8.0/10

CERTIFICATIONS

Android Kotlin Developer Nanodegree · Udacity · May 2024 [Verify](#)

Intermediate Algorithms (Blue) · Big-O Coding · May 2020

Android Programmer · University of Science · Jul 2016
